

ManaCold[®] Platinum 2.0

When the ManaCold therapy pad is applied to the patient's injured area, delivering continuous cold therapy through the tubing and into the cold pad, it creates an easy solution for your patients without a large mess. The device has a spill proof design to allow a leak-free transport in the home or clinical setting.

Features:

Contains a leak free cooling reservoir and 7' insulation tube

Includes a controller to control water flow and usage time.

ManaCold Platinum 2.0 can be used and operated by a patient or healthcare provider in a home or clinical setting

Plugs into wall during use. Pad sold separately.
